EN ROUTE TO GREATNESS?

What makes great companies? Seasonal Magazine identifies 30 small-cap, mid-cap and large-cap companies that have entered the freeway to greatness through holistic strategies including massive debt reduction, higher return on equity, astounding dividend payouts, soaring sales, consistent earnings growth, strategic acquisitions, surprising team work, intelligent diversifications, unbelievable asset quality, solid profit margin, impressive capacity expansion, and many more.

JAIN IRRIGATION SYSTEMS

Bhavarlal H Jain, Chairman

BACK IN RECKONING, IN A BIGGER ROLE

FY'15 has gone down in Jain Irrigation's history as the year of positive turnaround. From a consolidated loss of nearly 40 crore in FY'14, Jain Irrigation Systems has been able to post a profit of nearly 55 crore in FY'15. Agreed that it is a far cry from the profit run rate of Rs. 280 crore around 4 years back. But then, Jain's has been growing its topline during the past five years at a not too bad 15% CAGR, which means that higher and higher profits are destined to follow. Besides that, Jain's is no longer just a global micro-irrigation company, but a diversified business house that produces PVC Pipes, Polyethylene & Polypropylene Piping Systems; Plastic Sheets; Agro Processed Products; Processed Fruits; Tissue Culture, Hybrid & Grafted Plants; Greenhouses, Poly and Shade Houses; Bio-fertilizers; Green Energy solutions; Bio-Energy sources; Agricultural Inputs; and Financial Services.
